

The Mexico Equity and Income Fund, Inc. Report of Pichardo Asset Management (“PAM”), the Investment Adviser.

Dear Fund Stockholders,

We write The Mexico Equity and Income Fund, Inc. (the “Fund”) stockholder letter for the semi-annual period ended January 31, 2019, at the threshold of an outcome in principle of the trade tensions between the U.S. and China as well as divergence on projected global growth for 2019 and 2020. A robust U.S. 3.1% economic growth in 2018 and 2.5% expected growth for 2019 is good news for Emerging Markets (“EM”), particularly for Mexico following the United States, Mexico & Canada Agreement (“USMCA”) signed on November 30, 2018. *(Source: IMF — World Economic Outlook Update, January 2019).*

Mexico’s economic growth has remained resilient mainly due to internal consumption albeit decelerating at the end of 2018. The fourth quarter of 2018 (“4Q18”) registered growth of 1.8%, compared to 2.5% growth in the third quarter of 2018 (“3Q18”). Noteworthy, consumer confidence index reached 111.9 points, a record high in 18 years and the approval rating for President Lopez Obrador stands at 86% at the writing of this report. *(Source: INEGI and El Financiero Survey).* *(Please see Exhibits: D, E & F and PAM’s February economic report on the Fund’s webpage at www.mxefund.com).*

The Fund’s net asset value per share (“NAV”) U.S. dollar return registered a -10.28% decrease for the six months ended January 31, 2019, compared, to -12.28% for the MSCI-Mexico Index. PAM granted the Fund’s stockholders a risk-adjusted return (“Jensen’s Alpha”) of 0.70% for the six months ended January 31, 2019, and 5.36% for the twelve months ended January 31, 2019. The Fund’s NAV registered 200 basis points (“bps”) positive U.S. dollar excess return compared to the MSCI-Mexico Index for the six months ended January 31, 2019. PAM’s discipline to adhere the Fund to a growth and value investment philosophy has provided 668 bps positive U.S. dollar excess return for the twelve months ended January 31, 2019, compared to the MSCI-Mexico Index return. *(Source: U.S. Bancorp; Bloomberg).* *(Please see Exhibits: A & B).*

In light of the 25% tender offer paid on February 25, 2019, the Fund sold a position of around 6% in equities in the month of January to increase readily available securities to approximately 26.36% of the total net aggregate portfolio value as of January 31, 2019. At January 31, 2019, the Fund’s portfolio construction registered approximately 71.66% weight in equities, close to 2.0% in private equity and 26.36% in cash and readily available instruments, mainly denominated in U.S. dollar currency to exercise the Fund’s tender offer. The results of the Fund’s tender offer were as follows: 35.23% of the shares by each tendering shareholder were accepted for payment at a price of \$11.58 per share (99% of the NAV of \$11.70 on February 15, 2019), amounting to US\$ 19,962,368 out of total assets of US\$ 81,019,653. The Fund’s NAV U.S. dollar return registered a 6.98% return for the one month ended January 31, 2019, compared to 9.78% for the MSCI-Mexico Index. The Fund’s cumulative turnover rate for the six months ended January 31, 2019, was 111.4%. *(Source: U.S. Bancorp, PAM).* *(Please see Exhibits: B & C).*

THE MEXICO EQUITY AND INCOME FUND, INC.

The Fund's portfolio sectors overweight on January 31, 2019, were:

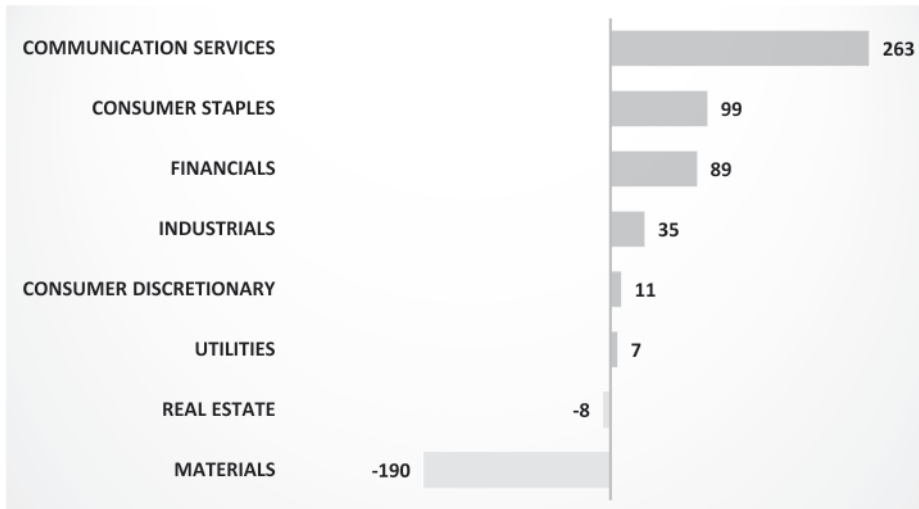

- i. **Materials:** Cement and concrete companies with free cash flow yield of 6.3% in 2018 and an estimated 11.0% in 2019 as of 4Q18. Unique and hard to replicate 100% geographic footprint in the U.S. (sales and EBITDA) supported by a sophisticated distribution network. Forex and energy costs are their primary challenge, according to management. Attractive valuations with approximately 40% discount to its average 5-year EV/EBITDA, according to PAM.
- ii. **Consumer Staples:** Food and staples retailing which presents healthy top-line trends driven by resilient consumption supported by job creation, remittances, and increasing real wages assuming a 2.0% economic growth in 2019.
- iii. **Financials:** Appealing thesis for financial groups according to PAM as loan growth is expected to increase by 9.5% in 2019. ROE's are expected to increase by 32 basis points in 2019. PAM's bottom-up analysis favors banks with ROE's of over 19.0% while the sector stands at 16.0%. Interest revenue and net income will increase by 15% and 12%. Attractive P/E valuations with a 45% discount to its 5-year average. Forward 12-month 8.3 times Price-to-Earnings multiple plots an earnings yield of approximately 12%.

We do not rule out an increase in a fixed income position that adheres to the Fund's investment objectives and restrictions given some supply shocks whose duration impact in the overall economy is not yet defined but could generate a continued deceleration of the economic activity by year-end 2019. This fixed income position currently yields approximately 8.00% - 8.30% annually in Mexican Treasury notes with a quasi-sovereign bonds risk. *(See macro and weekly reports available on the Fund's web page: www.mxefund.com).*

The Fund continues to adhere to a stock-picking strategy with earnings growth and discounted valuations in companies with organic growth at opportunistic market prices.

Final Remarks

We continue to adhere the Fund to an Investment Philosophy focused on high quality growth and value investments (“Special Situations”), mainly in the universe of the Mexican Stock Exchange through a bottom-up approach. PAM’s investment themes at the first year of a new regime with a new economic policy are i) domestic exposure, ii) EBITDA diversification outside Mexico, iii) hard currency revenue, iv) higher underweight on related regulatory concessions stocks.

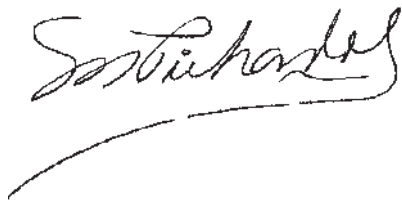

At the closing of this report, President Lopez Obrador has seven months of having won the Presidency and two months of taking office as of December 1, 2018. His mounting goal to contain violence through achieving a 4% economic growth rate before ending his term requires a private and public investment agreement. In this sense, the integration of the Investment Employment and Economic Growth Council with top officials of the Main Economic Ministry and the most representative entrepreneurs in the private sector provides a good signal despite downward economic revisions for this year, which is a normal business cycle for the Mexican government with every change of federal public administration.

Noteworthy, the new strategy for the energy sector places a significant concern on highly indebted government-owned oil company Petroleos Mexicanos (“Pemex”). However, the Federal government announced a bailout plan to provide financial relief to the payment of financial obligations in 2019.

At the writing, three rating agencies have revised Mexico’s long-term sovereign debt rating perspective to negative from stable, mainly due to higher contingent liabilities related to Pemex and lower economic growth prospects. *(See our weekly and macro reports available on the Fund’s web page: www.mxefund.com).*

We view this first year of a new regime presenting a market cycle which provides an opportunity to continue to present alpha to the Fund’s stockholders following our disciplined and focused research and de-indexed strategy. In general, Mexican management has proved to be internationally competitive with +30 years of experience operating in stressful financial periods in Mexico and accretive inorganic growth.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Eugenia Pichardo". The signature is fluid and cursive, with a long horizontal flourish extending to the left below the main text.

*Eugenia Pichardo
Portfolio Manager*

PAM's Overview

- Founded in 2003 by Maria Eugenia (Maru) Pichardo.
- +25-year experience Portfolio Managers specialized in Mexican equities and debt instruments.
- Investment philosophy focused on high quality growth and value (“Special Situations”) investments, mainly in the universe of the Mexican Stock Exchange.
- Bottom-up, intrinsic value approach.
- Committed analysts with +5-year experience.
- Investment strategy seeks to outperform market cycles.

Performance data represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that the investor's shares, when sold may be worth more or less than their original cost. Performance data to the most recent month end may be obtained by calling U.S. Bancorp Fund Services, LLC, (414)765-4255, or by consulting the Fund's web page: www.mxefund.com.

The Fund's shares have traded in the market above (at a premium), at, and below (at a discount) the net asset value per share (NAV) since the commencement of the Fund's operations. Generally, shares of closed-end investment companies, including those of the Fund, trade at a discount from NAV.

THE MEXICO EQUITY AND INCOME FUND, INC.

The information provided herein represents the opinion of Pichardo Asset Management not the Fund's Board of Directors' and is not intended to be a forecast of future events, a guarantee of future results, or investment advice.

The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The prospectus contains this and other important information about the investment company, and it may be obtained by calling U.S. Bancorp Fund Services, LLC, (414) 765-4255 or visiting www.themexicoequityandincomefund.com. Read it carefully before investing.

All investments involve risk. Principal loss is possible. Investing internationally involves additional risks such as currency fluctuations, currency devaluations, price volatility, social and economic instability, differing securities regulations and accounting standards, limited publicly available information, changes in taxation, periods of illiquidity and other factors. These risks are greater in the emerging markets. Stocks of small-and-mid-capitalization companies involve greater volatility and less liquidity than larger-capitalization companies.

Investing in Foreign Securities

Investment in Mexican securities involves special considerations and risks that are not normally associated with investments in U.S. securities, including (1) relatively higher price volatility, lower liquidity and the small market capitalization of Mexican securities markets; (2) currency fluctuations and the cost of converting Mexican pesos into U.S. dollars; (3) restrictions on foreign investment; (4) political, economic and social risks and uncertainties (5) higher rates of inflation and interest rates than in the United States.

Diversification does not assure a profit or protect against a loss in a declining market.

The Portfolio Securities are denominated in pesos. As a result, the Portfolio Securities must increase in market value at a rate in excess of the rate of any decline in the value of the peso against the U.S. dollar in order to avoid a decline in their equivalent U.S. dollar value.

The Fund's holdings and sector allocations are subject to change at any time and should not be considered recommendations to buy or sell any security. Please refer to the Schedule of Investments in this report for a complete list of fund holdings. Current and future portfolio holdings are subject to risk.

The Fund may have a higher turnover rate, which could result in higher transaction costs and higher tax liability, which may affect returns.

Earnings growth is not a measure of the Fund's future performance.

Definitions

- **BANXICO:** Banco de Mexico is the central bank of Mexico. By constitutional mandate, it is autonomous in both its operations and management. Its main function is to provide domestic currency to the Mexican economy and its main priority is to ensure the stability of the domestic currency's purchasing power.

- MEXBOL, or the IPC (Indice de Precios y Cotizaciones), is a capitalization-weighted index of the leading stocks traded on the Mexican Stock Exchange. The index was developed with a base level of 0.78 on October 30th, 1978.
- MSCI-MEXICO: The Morgan Stanley Capital International Index Mexico is a capitalization weighted index that monitors the performance of stocks traded in Mexico. One cannot invest directly in an index.
- Basis point (bps) is one hundredth of a percentage point (0.01%).
- UW: Underweight refers to one of two situations in regard to trading and finance. An underweight portfolio does not hold a sufficient amount of a particular security when compared to the weight of that security held in the underlying benchmark portfolio. Underweight can also refer to an analyst's opinion regarding the future performance of a security in scenarios where it is expected to underperform.
- The net asset value per share ("NAV") is calculated as the total market value of all the securities and other assets held by a fund minus total liabilities divided by the total number of common shares outstanding. The NAV of an investment company will fluctuate due to changes in the market prices of the underlying securities.
- The market price of the common share of a closed-end fund is determined in the open market by buyers and sellers and is the price at which investors may purchase or sell the common shares of a closed-end fund, which fluctuates throughout the day. The common share market price may differ from the Fund's Net Asset Value; shares of a closed-end fund may trade at a premium to (higher than) or a discount to (lower than) NAV. The difference between the market price and NAV is expressed as a percentage that is either a discount or a premium to NAV.
- References to other funds should not be considered a recommendation to buy or sell any security.
- INEGI: The National Institute of Statistics and Geography.
- GDP: Gross Domestic Product proxy. The monetary value of all the finished goods and services produced within a country's borders in a specific time period, though GDP is usually calculated on an annual basis. It includes all of private and public consumption, government outlays, investments and exports less imports that occur within a defined territory.
- Average forex depreciation: The average currency depreciation is the loss of value of a country's currency with respect to one or more foreign reference currencies, typically in a floating exchange rate system in which no official currency value is maintained.
- IMF: The International Monetary Fund is an international organization that aims to promote global economic growth and financial stability, to encourage international trade, and to reduce poverty.
- USMCA: The United States–Mexico–Canada Agreement is a pending free trade agreement between Canada, Mexico, and the United States, intended to replace the current North American Free Trade Agreement (NAFTA). It is the result of the 2017–2018 renegotiation of NAFTA by its

THE MEXICO EQUITY AND INCOME FUND, INC.

member states, which informally agreed to the terms on September 30, 2018, and formally on October 1. Final ratification and implementation is pending.

- **Intrinsic Value:** Intrinsic value is the perceived or calculated value of a company, including tangible and intangible factors, using fundamental analysis. Also called the true value, the intrinsic value may or may not be the same as the current market value.
- **CAGR:** The compound annual growth rate (CAGR) is the mean annual growth rate of an investment over a specified period of time longer than one year.
- **EBITDA:** Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA), is one indicator of a company's financial performance, and is used as a proxy for the earnings potential of a business, although doing so has its drawbacks. EBITDA strips out the cost of debt capital and its tax effects by adding back interest and taxes to earnings.
- **Net Income:** A company's total earnings (or profit). Net income is calculated by taking revenues and adjusting for the cost of doing business, depreciation, interest, taxes and other expenses. This number is found on a company's income statement and is an important measure of how profitable the company is over a period of time. The measure is also used to calculate earnings per share.
- **EV/EBITDA:** Enterprise value/EBITDA (more commonly referred to by the acronym EV/EBITDA) is a popular valuation multiple used in the finance industry to measure the value of a company. It is the most widely used valuation multiple based on enterprise value and is often used in conjunction with, or as an alternative to, the P/E ratio (Price/Earnings ratio) to determine the fair market value of a company. An advantage of this multiple is that it is capital structure-neutral, and, therefore, this multiple can be used to directly compare companies with different levels of debt.
- **Dividend Yield:** Dividend yield refers to a stock's annual dividend payments to shareholders, expressed as a percentage of the stock's current price. Dividend yield is used to calculate the earnings on investment (shares) considering only the returns in the form of total dividends declared by the company during the year.
- **Share repurchase:** A share repurchase is a program by which a company buys back its own shares from the marketplace, usually because management thinks the shares are undervalued, and thereby reducing the number of outstanding shares.
- **ROE:** Return on equity (ROE) is a measure of financial performance calculated by dividing net income by shareholders' equity. Because shareholders' equity is equal to a company's assets minus its debt, ROE could be thought of as the return on net assets. ROE is considered a measure of how effectively management is using a company's assets to create profits.
- **Free Cash Flow Yield:** Free cash flow yield is a financial ratio that standardizes the free cash flow per share a company is expected to earn against its market value per share. The ratio is calculated by taking the free cash flow per share divided by the share price. Free cash flow yield is similar in nature to the earnings yield metric, which is usually meant to measure GAAP earnings per share divided by share price.

- Price to Earnings Ratio P/E: A valuation ratio of a company's current share price compared to its per-share earnings (EPS).
- Earnings per Share EPS: The portion of a company's profit allocated to each outstanding share of common stock. Earnings per share serves as an indicator of a company's profitability.
- M&A: Mergers and acquisitions (M&A) is a general term that refers to the consolidation of companies or assets through various types of financial transactions. M&A can include a number of different transactions, such as mergers, acquisitions, consolidations, tender offers, purchase of assets and management acquisitions. In all cases, two companies are involved.
- Small & Mid-Caps: Small & Mid-Capitalization companies are companies with a market capitalization of less than U.S. \$ 1.0 billion for Small Cap companies, and between U.S. \$1.0 and U.S. \$5.0 billion for Mid-Cap companies, as defined by PAM.
- Hard Currency: A hard currency is a monetary system that is widely accepted around the world as a form of payment for goods and services. It usually comes from a country that has a strong economic and political situation.
- 10-Year US T-Bond: A Treasury bond (T-Bond) is a marketable, fixed-interest U.S. government debt security with a maturity of more than 10 years.
- M-Bond: Mexico Federal Government fixed-rate development bonds that are issued and placed at terms of over one year, pay interest every six months and their interest rate is determined at issue date and remains fixed all along the life of the bond.
- Spread: A spread can have several meanings in finance. Basically, however, they all refer to the difference between two prices, rates or yields. In fixed income securities, spread refers to the yield difference between two different securities with the same maturity date, or two similar securities with different maturity dates.
- Jensen's Alpha: A measure of the return on a portfolio over what the capital asset pricing model predicts, given the beta and market return on that portfolio. The index also adjusts for risk.
- BETA: Beta is a measure of the volatility, or systematic risk, of a security or a portfolio in comparison to the entire market or a benchmark. Beta is used in the capital asset pricing model (CAPM), which calculates the expected return of an asset based on its beta and expected market returns. Beta is also known as the beta coefficient.
- Turnover: Portfolio turnover is a measure of how frequently assets within a fund are bought and sold by the managers. Portfolio turnover is calculated by taking either the total amount of new securities purchased, or the amount of securities sold (whichever is less) over a period, divided by the total net asset value (NAV) of the fund. The measurement is usually reported for a 12-month time period.

Notes to Financial Statements

January 31, 2019
(Unaudited)

NOTE A: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Mexico Equity and Income Fund, Inc. (the “Fund”) was incorporated in Maryland on May 24, 1990, and commenced operations on August 21, 1990. The Fund is registered under the Investment Company Act of 1940, as amended, as a closed-end, non-diversified management investment company.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services—Investment Companies”.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Significant accounting policies are as follows:

Portfolio Valuation. Investments are stated at value in the accompanying financial statements. Listed equity securities are valued at the closing price on the exchange or market on which the security is primarily traded (the “Primary Market”) at the valuation time. If the security did not trade on the Primary Market, it shall be valued at the closing price on another comparable exchange where it trades at the valuation time. If there are no such closing prices, the security shall be valued at the mean between the most recent highest bid and lowest ask prices at the valuation time. Investments in short-term debt securities having a maturity of 60 days or less are valued at amortized cost if their term to maturity from the date of purchase was less than 60 days, or by amortizing their value on the 61st day prior to maturity if their term to maturity from the date of purchase when acquired by the Fund was more than 60 days. Other assets and securities for which no quotations are readily available will be valued in good faith at fair value using methods determined by the Board of Directors. These methods include, but are not limited to, the fundamental analytical data relating to the investment; the nature and duration of restrictions in the market in which they are traded (including the time needed to dispose of the security, methods of soliciting offers and mechanics of transfer); the evaluation of the forces which influence the market in which these securities may be purchased or sold, including the economic outlook and the condition of the industry in which the issuer participates. The Fund has a Valuation Committee comprised of independent directors which oversees the valuation of portfolio securities.

Investment Transactions and Investment Income. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes. Interest income, including the accretion of discount and amortization of premium on investments, is recorded on an accrual basis; dividend income is recorded on the ex-dividend date or, using reasonable diligence, when known to the Fund. The collectibility of income receivable from foreign securities is evaluated periodically, and any resulting allowances for uncollectible amounts are reflected currently in the determination of investment income. There was no allowance for uncollectible amounts at January 31, 2019.

January 31, 2019
(Unaudited)

Notes to Financial Statements (continued)

Tax Status. No provision is made for U.S. Federal income or excise taxes as it is the Fund's intention to continue to qualify as a regulated investment company and to make the requisite distributions to its shareholders that will be sufficient to relieve it from all or substantially all U.S. Federal income and excise taxes.

The Fund is subject to the following withholding taxes on income from Mexican sources:

Interest income on debt issued by the Mexican federal government is generally not subject to withholding. Withholding tax on interest from other debt obligations such as publicly traded bonds and loans by banks or insurance companies is at a rate of 4.9% under the tax treaty between Mexico and the United States.

Gains realized from the sale or disposition of debt securities may be subject to a 4.9% withholding tax. Gains realized by the Fund from the sale or disposition of equity securities that are listed and traded on the Mexican Stock Exchange ("MSE") are exempt from Mexican withholding tax if sold through the stock exchange. Gains realized on transactions outside of the MSE may be subject to withholding at a rate of 25% (20% rate prior to January 1, 2002) of the value of the shares sold or, upon the election of the Fund, at 35% (40% rate prior to January 1, 2002) of the gain. If the Fund has owned less than 25% of the outstanding stock of the issuer of the equity securities within the 12 month period preceding the disposition, then such disposition will not be subject to capital gains taxes as provided for in the treaty to avoid double taxation between Mexico and the United States.

Summary of Fair Value Exposure at January 31, 2019. The Fund follows the FASB ASC Topic 820 hierarchy, under which various inputs are used in determining the value of the Fund's investments.

The basis of the hierarchy is dependent upon various "inputs" used to determine the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the company has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the company's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the

Notes to Financial Statements (continued)

January 31, 2019
(Unaudited)

determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's investments carried at fair value as of January 31, 2019:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3*</u>	<u>Total</u>
Equity

Level 3 Reconciliation Disclosure

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

<u>Category</u>	<u>Common Stock</u>	<u>Capital Development Certificates</u>
Balance as of July 31, 2018	\$ —	\$1,695,905
Acquisitions	—	—
Dispositions	(265)	—
Transfer in and/or out of Level 3	1,065,217	—
Realized gain (loss)	104	—
Change in unrealized depreciation ⁽¹⁾	<u>(48,217)</u>	<u>(61,250)</u>
Balance as of January 31, 2019	<u>\$ 1,016,839</u>	<u>\$1,634,655</u>
Change in unrealized depreciation ⁽¹⁾ during the period for Level 3 investments held at January 31, 2019	\$ (48,217)	\$ (61,250)

(1) Included in the net unrealized depreciation on investments and foreign currency on the Statement of Assets & Liabilities.

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of January 31, 2019:

	<u>Fair Value January 31, 2019</u>	<u>Valuation Methodologies</u>	<u>Unobservable Input⁽¹⁾</u>	<u>Range</u>
Common Stock	\$1,016,839	Market Comparables	Liquidity Discount	\$2.187 – \$2.501
Capital Development Certificates	\$1,634,655	Market Comparables/ Sum of the Parts Valuation	Liquidity Discount	\$5.073 – \$5.667

(1) In determining these inputs, management evaluates a variety of factors including economic conditions, foreign exchange rates, industry and market developments, market valuations of comparable companies and company specific developments.

Notes to Financial Statements (continued)

January 31, 2019
(Unaudited)**Disclosures about Derivative Instruments and Hedging Activities**

The Fund did not invest in derivative securities or engage in hedging activities during the period ended January 31, 2019.

Federal Income Taxes. The Fund intends to comply with the requirements of the Internal Revenue Code necessary to qualify as a regulated investment company and to make the requisite distributions of income and capital gains to its shareholders sufficient to relieve it from all or substantially all federal income taxes. Therefore, no federal income tax provision is required. Accounting principles generally accepted in the United States of America require that permanent differences between financial reporting and tax reporting be reclassified between various components of net assets.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by tax authorities. The Adviser has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2015-2017), or expected to be taken in the Fund’s 2018 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal, New York State and foreign jurisdictions where the Fund makes significant investments; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Reclassification of Capital Accounts. Accounting Principles generally accepted in the United States of America require certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. The permanent differences are primarily attributed to foreign currency loss reclassifications. For the year ended July 31, 2018, the following reclassifications were made for permanent tax differences on the Statement of Assets and Liabilities.

Accumulated Undistributed Net Investment Income	\$ (305,266)
Accumulated Net Realized Loss	305,266
Paid-in Capital	—

Foreign Currency Translation. The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, assets and liabilities at the current Mexican peso exchange rate on the valuation date, and
- (ii) purchases and sales of investment securities, income and expenses at the Mexican peso exchange rate prevailing on the respective dates of such transactions. Fluctuations in foreign currency rates, however, when determining the gain or loss upon the sale of foreign currency denominated debt obligations pursuant to U.S. Federal income tax regulations; such amounts are categorized as foreign exchange gain or loss for income tax reporting purposes.

January 31, 2019
(Unaudited)

Notes to Financial Statements (continued)

The Fund reports realized foreign exchange gains and losses on all other foreign currency related transactions as components of realized gains and losses for financial reporting purposes, whereas such gains and losses are treated as ordinary income or loss for Federal income tax purposes.

Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in the foreign exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among other factors, the level of governmental supervision and regulation of foreign securities markets and the possibilities of political or economic instability.

Distribution of Income and Gains. The Fund intends to distribute to shareholders, at least annually, substantially all of its net investment income, including foreign currency gains. The Fund also intends to distribute annually any net realized capital gains in excess of net realized capital losses (including any capital loss carryovers), except in circumstances where the Directors of the Fund determine that the decrease in the size of the Fund’s assets resulting from the distribution of the gains would generally not be in the interest of the Fund’s shareholders. An additional distribution may be made to the extent necessary to avoid payment of a 4% U.S. Federal excise tax.

Distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized gains are determined in accordance with U.S. Federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their Federal tax-basis treatment; temporary differences do not require reclassification. To the extent they exceed net investment income and net realized gains for tax purposes, they are reported as distributions from additional paid-in capital.

Distributions to Shareholders. The tax character of distributions paid to shareholders during the periods ended July 31, 2018 and July 31, 2017 were as follows:

<u>Distributions paid from:</u>	<u>7/31/18</u>	<u>7/31/17</u>
Ordinary Income	\$352,484	\$ —
Long-Term Capital Gain	—	—
Total	<u>\$352,484</u>	<u>\$ —</u>

Notes to Financial Statements (continued)

January 31, 2019
(Unaudited)

As of July 31, 2018, the components of distributable earnings on a tax basis were as follows:

Cost of Investments for tax purposes(a)	\$ 85,719,927
Gross tax unrealized appreciation on investments	12,521,299
Gross tax unrealized depreciation on investments	<u>(5,718,750)</u>
Net tax unrealized appreciation on investments	6,802,549
Undistributed ordinary income	8,093
Undistributed long-term capital gains	<u>—</u>
Total distributable earnings	8,093
Other accumulated gains(losses)	\$ (6,459,488)
Total accumulated earnings(losses)	<u>\$ 351,154</u>

- (a) Represents cost for federal income tax purposes. Differences between the Fund's cost basis of investments at July 31, 2018, for book and tax purposes, relates primarily to the deferral of losses related to wash sales and PFIC's.

At July 31, 2018, the Fund had tax basis capital losses which may be carried forward to offset future short term and long term capital gains indefinitely in the amount of \$2,483,780 and \$3,975,708, respectively. To the extent that the Fund may realize future net capital gains, those gains will be offset by any of the unused capital loss carryforward.

NOTE B: MANAGEMENT, INVESTMENT ADVISORY AND ADMINISTRATIVE SERVICES

Pichardo Asset Management, S.A. de C.V. serves as the Fund's Investment Adviser (the "Investment Adviser") under the terms of the Investment Advisory Agreement (the "Advisory Agreement") effective July 1, 2003. Pursuant to the Advisory Agreement, the Investment Adviser makes investment decisions for the Fund and supervises the acquisition and disposition of securities by the Fund. For its services, the Investment Adviser is paid a base fee, accrued daily at the annual rate of 1.00%, subject to a performance fee adjustment which increases or decreases the fee depending upon how well the Fund has performed relative to the MSCI Mexico Index (the "Index") 12 month rolling average. The fee adjustment will be calculated using a monthly adjustment rate that is based upon the Fund's relative performance to the Index. The performance adjustment rate will be positive (resulting in an upward fee adjustment) for each percentage point, or portion thereof, that the investment performance of the Fund exceeds the investment performance of the Index for the performance period multiplied by three (3) and will be negative (resulting in a downward fee adjustment) for each percentage point, or portion thereof, that the investment performance of the Index exceeds the investment performance of the Fund for the performance period multiplied by three (3). Determinations of the performance adjustment rate (positive or negative) will be made in increments of 0.01% of differential performance. As an example, if the Fund's performance for the preceding 12 months exceeds the performance of the Index by 1.00%, the performance adjustment

January 31, 2019
(Unaudited)

Notes to Financial Statements (continued)

rate would be 3×0.01 , which would result in a monthly fee equal to an annual rate of 1.03%. The performance adjustment rate will be limited to a 0.15% fee adjustment, positive or negative.

For the six months ended January 31, 2019, the Fund's investment performance ranged from 4.0% to 9.7% above the investment performance of the Index. Accordingly, for the six months ended January 31, 2019 the net investment advisor fee consisted of the base fee of \$420,121 and an upward performance fee adjustment of \$63,733.

Effective January 1, 2015, the Fund pays each of its directors who is not a director, officer or employee of the Investment Adviser, the Administrator or any affiliate thereof an annual fee of \$35,000, paid pro rata, quarterly plus a fee of \$500 for each meeting held telephonically. As additional annual compensation, the Chairman of the Fund will receive \$5,000, the Audit Committee Chairman and Valuation Committee Chairman will receive \$3,000, and the Nomination Committee Chairman will receive \$2,000. For serving the Fund as Chief Compliance Officer, in addition to the aforementioned Directors' fees, Mr. Hellerman receives annual compensation in the amount of \$45,000. In addition, the Fund reimburses the directors and Chief Compliance Officer ("CCO") for travel and out-of-pocket expenses incurred in connection with Board of Directors' meetings and CCO due diligence requirements.

U.S. Bancorp Fund Services, LLC ("Fund Services" or the "Administrator"), doing business as U.S. Bank Global Fund Services, serves as the Fund's Administrator and, in that capacity, performs various administrative services for the Fund. Fund Services also serves as the Fund's Fund Accountant (the "Fund Accountant") and Transfer Agent. U.S. Bank, N.A. serves as the Fund's custodian (the "Custodian"). The Custodian is an affiliate of the Administrator. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the directors; monitors the activities of the Fund's Custodian and Fund Accountant; coordinates the preparation and payment of the Fund's expenses and reviews the Fund's expense accruals.

NOTE C: PORTFOLIO ACTIVITY

Purchases and sales of securities other than short-term obligations, aggregated \$84,590,181 and \$105,477,363 respectively, for the six months ended January 31, 2019.

At January 31, 2019 approximately 72.2% of the Fund's net assets were invested in Mexican securities. The Mexican securities markets are substantially smaller, less liquid, and more volatile than the major securities markets in the United States. Consequently, acquisitions and dispositions of securities by the Fund may be limited.

NOTE D: CAPITAL STOCK

During the six months ended January 31, 2019, the Fund purchased 38,364 shares of capital stock in the open market at a cost of \$434,544. The weighted average discount of these purchases comparing the average purchase price to net asset value at the close of the New York Stock Exchange was 13.79%.

January 31, 2019
(Unaudited)

Notes to Financial Statements (continued)

During the year ended July 31, 2018, the Fund purchased 48,714 shares of capital stock in the open market at a cost of \$522,027. The weighted average discount of these purchases comparing the average purchase price to net asset value at the close of the New York Stock Exchange was 14.01%.

The Fund announced on January 19, 2018 that it was offering to purchase up to 5% of common shares outstanding of the Fund at 95% of the net asset value ("NAV") per common share on February 23, 2018. At the expiration of the offer on February 23, 2018, a total of 1,961,143 shares or approximately 26.71% of the Fund's outstanding common shares were validly tendered. As the total number of shares tendered exceeded the number of shares the Fund offered to purchase pursuant to the Offer, on a pro-rated basis, approximately 18.72% of the Fund's shares tendered by each tendering shareholder were accepted for payment. There were 367,174 shares accepted for payment at a price of \$12.15 per share (95% of the NAV per common share of \$12.79) or \$4,461,164.

During the year ended July 31, 2017, the Fund purchased 82,941 shares of capital stock in the open market at a cost of \$882,728. The weighted average discount of these purchases comparing the average purchase price to net asset value at the close of the New York Stock Exchange was 13.74%.

During the year ended July 31, 2016, the Fund purchased 109,636 shares of capital stock in the open market at a cost of \$1,207,197. The weighted average discount of these purchases comparing the average purchase price to net asset value at the close of the New York Stock Exchange was 13.68%.

On December 8, 2015, the Board of Directors declared a stock dividend of \$0.56 per share. This dividend was paid in shares of common stock of the Fund, or in cash by specific election of the stockholders. The Fund issued 113,378 shares of common stock to stockholders that did not elect the cash option, which amounted to \$1,089,584.

On December 17, 2015 at the Annual Meeting of Stockholders of the Fund, the preferred stockholders, voting as a separate class, and the common and preferred stockholders, voting together as a single class, each approved an amendment to the Fund's Articles Supplementary authorizing the elimination of the preferred stock. Consequently, the Fund redeemed all 48,535 preferred shares outstanding at 98% of the Fund's net asset value per common share as of the close of business on Friday, January 8, 2016. Since such net asset value was \$11.50, the Fund paid each preferred stockholder \$11.27 per share on or about February 10, 2016. The total amount of the redemption payment was \$546,989. The net asset value per share of the Fund's stockholders was increased by approximately \$0.001 per share as a result of this redemption.

Share Repurchase

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.

NOTE E: RECENT ACCOUNTING PRONOUNCEMENTS

In August 2018, FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”). The primary focus of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements. The changes affect all companies that are required to include fair value measurement disclosures. In general, the amendments in ASU 2018-13 are effective for all entities for fiscal years and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt the removed or modified disclosures upon the issuance of ASU 2018-13 and may delay adoption of the additional disclosures, which are required for public companies only, until their effective date. Management has chosen to early adopt the eliminated or modified disclosures for the period ended January 31, 2019.

NOTE F: SUBSEQUENT EVENTS

The Fund announced on January 11, 2019 that it was offering to purchase up to 25% of common shares outstanding of the Fund at 99% of the net asset value (“NAV”) per common share on February 15, 2019. At the expiration of the offer on February 15, 2019, a total of 4,892,653 shares or approximately 70.95% of the Fund’s outstanding common shares were validly tendered. As the total number of shares tendered exceeded the number of shares the Fund offered to purchase pursuant to the Offer, on a pro-rated basis, approximately 35.23% of the Fund’s shares tendered by each tendering shareholder were accepted for payment. There were 1,723,866 shares accepted for payment at a price of \$11.58 per share (99% of the NAV per common share of \$11.70) or \$19,962,368.

Additional Information

January 31, 2019
(Unaudited)

NOTE 1: INFORMATION ABOUT PROXY VOTING

Information regarding how the Fund votes proxies relating to portfolio securities is available without charge upon request by calling toll-free at 1-877-785-0376 and the SEC's website at www.sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve month period ended June 30 is available on the SEC's website at www.sec.gov or by calling the toll-free number listed above.

NOTE 2: AVAILABILITY OF QUARTERLY PORTFOLIO SCHEDULE

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The filing will be available, upon request, by calling 1-877-785-0376. Furthermore, you will be able to obtain a copy of the filing on the SEC's website at <http://www.sec.gov> beginning with the filing for the period ended October 31, 2004. The Fund's Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

NOTE 3: INFORMATION ABOUT CERTIFICATIONS

In December 2018, the Fund submitted a CEO annual certification to the NYSE in which the Fund's principal executive officer certified that she was not aware, as of the date of the certification, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in the filing with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

NOTE 4: INFORMATION ON FORWARD LOOKING STATEMENTS

Except for historical information contained in this report for the Fund, the matters discussed in this report may constitute forward-looking statements made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. These include any adviser or portfolio manager predictions, assessments, analyses or outlooks for individual securities, industries, market sectors and/or markets. These statements involve risks and uncertainties. In addition to the general risks described for the Fund in the most recent Prospectus, other factors bearing on this report include the accuracy of the adviser's or portfolio manager's data, forecasts and predictions, and the appropriateness of the investment programs designed by the adviser or portfolio manager to implement their strategies efficiently and effectively. Any one or more of these factors, as well as other risks affecting the securities markets and investment instruments generally, could cause the actual results of the Fund to differ materially as compared to benchmarks associated with the Fund.

ADDITIONAL INFORMATION APPLICABLE TO FOREIGN SHAREHOLDERS ONLY

The percent of ordinary income distributions designated as interest related dividends for the fiscal year ended July 31, 2018 was 0.00%. (unaudited)

The percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871(k)(2)(C) was 0.00%. (unaudited)

The Fund designates 0.25% of dividends declared for the fiscal year July 31, 2018 from net investment income as qualified dividend income under the Jobs and Growth Tax Relief Reconciliation Act of 2003. (unaudited)

Dividends and Distributions

January 31, 2019
(Unaudited)

DIVIDEND REINVESTMENT PLAN

The Fund intends to distribute to shareholders substantially all of its net investment company taxable income at least annually. Investment company taxable income, as defined in section 852 of the Internal Revenue Service Code of 1986, includes all of the Fund's taxable income minus the excess, if any, of its net realized long-term capital gains over its net realized short-term capital losses (including any capital loss carryovers), plus or minus certain other required adjustments. The Fund also expects to distribute annually substantially all of its net realized long-term capital gains in excess of net realized short-term capital losses (including any capital loss carryovers), except in circumstances where the Fund realizes very large capital gains and where the Directors of the Fund determine that the decrease in the size of the Fund's assets resulting from the distribution of the gains would not be in the interest of the Fund's shareholders generally.

Pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"), each shareholder will be deemed to have elected, unless the Plan Agent (as defined below) is otherwise instructed by the shareholder in writing, to have all distributions, net of any applicable U.S. withholding tax, automatically reinvested in additional shares of the Fund by U.S. Bancorp Fund Services, LLC, the Fund's transfer agent, as the Plan Agent (the "Plan Agent"). Shareholders who do not participate in the Plan will receive all dividends and distributions in cash, net of any applicable U.S. withholding tax, paid in U.S. dollars by check mailed directly to the shareholder by the Plan Agent, as dividend-paying agent. Shareholders who do not wish to have dividends and distributions automatically reinvested should notify the Plan Agent for The Mexico Equity and Income Fund, Inc., c/o U.S. Bancorp Fund Services, ATTN: Ms. Casey Sauer, 615 East Michigan Street, Milwaukee, WI 53202. Dividends and distributions with respect to shares of the Fund's Common Stock registered in the name of a broker-dealer or other nominee (i.e., in "street name") will be reinvested under the Plan unless the service is not provided by the broker or nominee or the shareholder elects to receive dividends and distributions in cash. A shareholder whose shares are held by a broker or nominee that does not provide a dividend reinvestment program may be required to have his shares registered in his own name to participate in the Plan. Investors who own shares of the Fund's Common Stock registered in street name should contact the broker or nominee for details.

The Plan Agent serves as agent for the shareholders in administering the Plan. If the Directors of the Fund declare an income dividend or a capital gains distribution payable in the Fund's Common Stock, or in cash, as shareholders may have elected, nonparticipants in the Plan will receive cash and participants in the Plan will receive Common Stock to be issued by the Fund. If the market price per share on the valuation date equals or exceeds net asset value per share on that date, the Fund will issue new shares to participants at net asset value; or, if the net asset value is less than 95% of the market price on the valuation date, then such shares will be issued at 95% of the market price.

If net asset value per share on the valuation date exceeds the market price per share on that date, participants in the Plan will receive shares of Common Stock from the Fund valued at market price. The

January 31, 2019
(Unaudited)

Dividends and Distributions (concluded)

valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange trading day, the next preceding trading day. If the Fund should declare an income dividend or capital gains distribution payable only in cash, the Plan Agent will, as agent for the participants, buy Fund shares in the open market on the New York Stock Exchange or elsewhere, for the participants' accounts on, or shortly after, the payment date.

The Plan Agent maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in an account, including information needed by shareholders for personal and tax records. Shares in the account of each Plan participant will be held by the Plan Agent in noncertified form in the name of the participant, and each shareholder's proxy will include those shares purchased pursuant to the Plan.

In the case of shareholders such as banks, brokers or nominees that hold shares for others who are beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholders as representing the total amount registered in the shareholder's name and held for the account of beneficial owners who participate in the Plan.

There is no charge to participants for reinvesting dividends or capital gains distributions payable in either Common Stock or cash. The Plan Agent's fees for the handling or reinvestment of such dividends and capital gains distributions will be paid by the Fund. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in stock or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or capital gains distributions payable in cash.

Brokerage charges for purchasing small amounts of Common Stock for individual accounts through the Plan are expected to be less than usual brokerage charges for such transactions because the Plan Agent will be purchasing stock for all participants in blocks and prorating the lower commissions thus attainable. Brokerage commissions will vary based on, among other things, the broker selected to effect a particular purchase and the number of participants on whose behalf such purchase is being made.

The receipt of dividends and distributions in Common Stock under the Plan will not relieve participants of any income tax (including withholding tax) that may be payable on such dividends or distributions.

Experience under the Plan may indicate that changes in the Plan are desirable. Accordingly, the Fund and the Plan Agent reserve the right to terminate the Plan as applied to any dividend or distribution paid subsequent to notice of the termination sent to participants at least 30 days before the record date for such dividend or distribution. The Plan also may be amended by the Fund or the Plan Agent, but (except when necessary or appropriate to comply with applicable law, or rules or policies of a regulatory authority) only upon at least 30 days' written notice to participants. All correspondence concerning the Plan should be directed to the Plan Agent at the address above.

Results of Annual Stockholders Meeting

January 31, 2019
(Unaudited)

The Fund's Annual Stockholders meeting was held on December 13, 2018, at the offices of U.S. Bancorp Fund Services LLC, 777 E. Wisconsin Avenue, Milwaukee, WI 53202. As of October 18, 2018, the record date, outstanding shares of common stock were 6,895,464. Holders of 6,400,296 common shares of the Fund were present at the meeting either in person or by proxy. These holders, as being holders of a majority of the outstanding shares of the Fund, constituted a quorum. The stockholders voted on one proposal. The stockholders elected two Directors to the Board of Directors. The following table provides information concerning the matters voted on at the meeting:

I. (A) Election of Directors – Common

	<u>Votes For</u>	<u>Votes Against</u>	<u>Votes Withheld</u>
Richard Abraham	3,322,192	2,984,501	93,603

I. (B) Election of Directors – Common

	<u>Votes For</u>	<u>Votes Against</u>	<u>Votes Withheld</u>
Rajeev Das	3,346,278	2,960,415	93,603

The Mexico Equity and Income Fund, Inc.

Semi-Annual Report

January 31, 2019

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the shareholder reports for The Mexico Equity and Income Fund, Inc. will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary (such as a broker-dealer or bank). Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by calling the Fund's Transfer Agent, U.S. Bancorp Fund Services, LLC, at 1-877-785-0376.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports; if you invest directly with the Fund, you can call the Fund's Transfer Agent, U.S. Bancorp Fund Services, LLC, at 1-877-785-0376. Your election to receive reports in paper form will apply to all funds held in your account with your financial intermediary.
